Office Action Summary	Application No. 10/802,385	Applicant(s) MILLER, JAMES V.	
	Examiner Blair M. Johnson	Art Unit 3634	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 February 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Claim Rejections - 35 USC § 112

Claims 9-12, 14, 15, 17, 19, 21-24, 26 and 27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The arc of the recited "curved surface" being at least a specific number of degrees is not supported by the specification.

Claim Objections

Claim 8 is objected to because of the following informalities: the last phrase of the claim is grammatically incorrect.

Claim Rejections - 35 USC § 102

Claims 8-27 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Schneider.

In Fig. 1, see engaging track 2 and receptacle track 3. The engaging track has a decreasing radius arc ending at a tip. The receptacle track has a lip (defining the left edge of the opening into receptacle 5), a first articulation surface (clockwise from the lip), a second articulation surface at the top of the receptacle 5, the surfaces being separated by a planar portion, and a "curved surface" which is the surface of the member that forms the receptacle 5 only on the interior side of the slot, which clearly meets the limitation "curved surface". The recitation of "a relative movement" is met by no movement up to movement greater than 0.05 inches. Any movement of Schneider is

at some point "less than 0.05 inches" and no movement at all is also "less than 0.05 inches". It is clear from the apparent relative sizes of the engaging track and receptacle track that one slat may be rotated 80 degrees, thereby leaving an angle of 100 degrees between the two planes.

Double Patenting

Claims 8-27 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 28-47, respectively, of copending Application No. 11/058,879. The claims of 11/058,879 recites additional structural features but include all elements recited in claims 8-27. This is a provisional obviousness-type double patenting rejection.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3634

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
